PROJECTS

Comprehensive Language Understanding: Developed basic web development projects in C, C++, Python, and Java to gain a comprehensive understanding of each language's fundamentals.

Cross-Language Replication: Replicated the same projects across different languages to explore their unique features and expand proficiency in each language.

Adaptability and Versatility: Demonstrated adaptability and versatility by applying consistent project concepts to diverse programming languages, fostering a deeper insight into their individual functionalities and structures.

EXTRA-CURRICULAR ACTIVITIES

- **Football:** Proficient scorer and vice-captain, demonstrating exceptional goal-scoring abilities and leadership. Recognized for outstanding performance and teamwork, receiving accolades in football competitions.

- Esports: Skilled assaulter in BGMI, showcasing strategic thinking and precision in gameplay. Actively participated in esports competitions, demonstrating a commitment to growth and achievement in competitive gaming.

LEADERSHIP

- Senior Sales Manager **KIA India** During my time as a Senior Sales Manager at Kia Motors, I led the sales team and managed financial transactions with a strong focus on customer satisfaction. Additionally, I coordinated car deliveries, honing my skills in multitasking and effective leadership. My approach cultivated a friendly and efficient work environment through strong communication and humility, fostering a positive and productive atmosphere for the team.
